## **INTENT TO FILL REQUIREMENTS FOR HARDFILL SITES**

Clean hard fill may be disposed of in any of the following four methods pursuant to OAC Rule 3745-400-05 (A)

1. Recycled into usable construction material.
2. Disposed in a licensed construction and demolition debris (C&DD) or solid waste landfill.
3. Used in legitimate fill operations for construction purposes or to bring the site up to a consistent grade, on the site of generation.
4. Used in legitimate fill operations for construction purposes or to bring the site up to a consistent grade, on a site other than the site of generation, pursuant to paragraph (C) of this rule.
  - C. The person responsible for causing clean hard fill to be used in legitimate fill operations for construction purposes or to bring the site up to a consistent grade, on a site other than the site of generation, shall provide a written "Notice of Intent to Fill" to each licensing authority where the clean hard fill is to be placed. The "Notice of Intent to Fill" shall state the nature of the fill material, the site to be filled, when filling will begin and end, and the telephone number of the notifier. The notification shall be received by each local licensing authority with sites to be filled, at least seven days prior to filling as required by division (F) of section 3714.13 of the Revised Code. The notifier shall provide a new Notice of Intent to Fill if there are any changes in the information required by this rule for notification.

### **CLEAN HARD FILL DEFINITION (OAC Rule 3745-400-01 (C 1))**

"Clean hard fill" means construction and demolition debris which consists only of reinforced or nonreinforced concrete, asphalt concrete, brick, block, tile, or stone which can be reutilized as construction material. Brick in clean hard fill includes but is not limited to refractory brick and mortar. Clean hard fill does not include materials contaminated with hazardous wastes, solid wastes, or infectious wastes.
