APPLICATION FOR LAND SURVEY EVALUATION

This is for land splits that do **not** involve an existing house septic and well inspection.
Land splits with an existing house septic and/ or well requires the land split application

Criteria:

1. Newly created residential building lots ≤ 20 acres in size, and/or
2. Non-building lot/add-ons ≤ 20 acres where the ground is taken from a large lot that will remain > 20 acres.

Other:

1. Lots to be serviced by public sewer still may need a water sample if a private water well exist.
You also need to get approval from the applicable sewer authority and the applicable zoning authority.
2. Commercial lots that will **not** be serviced by public sewer and estimated flow $< 1,000$ gallons per day need to be evaluated by the Ohio Environmental Protection Agency South West District Office. This may be in conjunction with Health Department for a water sample if a private water well exists.
