Temporary Food Guide

Due to the possibility of large crowds and multiple camping areas for this event, the Darke County General Health District is encouraging your temporary food event to be donation only as we may not have the staff to inspect every location in a timely manner. Donation only (no suggested price) does not require a license but you are still required to follow basic sanitation steps. Food vendors also have the option of obtaining a permit or selling pre-packaged non potentially hazardous foods such as pop, water, prepackaged chips, candy bars, etc. (for a full list of rules see [Ohio Administrative Code 3717-1](#)):

Water must be from an approved source – city water, health department sampled well, or bottled water	Gloves, utensils, etc. – no bare hand contact with food. Hair restraints for workers around food
Hot holding at least 135°F, cold holding 41°F or below, and a thermometer to check	Hand wash station setup correctly – water at least 100°F, soap, paper towels, and a catch basin
Dish wash station - warm water, rinse, sanitize (w/bleach), and air dry. Test strips to check bleach concentration can be found online or at Gordon Food Service. (Bins must be big enough to fit your largest dish)	Gray/waste water disposed of properly

Proper Cooking Temperatures

Eggs/Fish: 145°F
Beef/Pork: 155°F
Poultry: 165°F

This is an approved handwash set up

This is an approved Dishwash set up

PLEASE REGISTER YOUR EVENT HERE: If you charge for food, you must fill out the packet located at this [link](#) or at the Health Department.
