Ms. Ginger Gehret,

I am applying for an open position at the health department environmental services program. I am a very motivated and personable individual who is looking for a job near my home.

I graduated from Wright State University in the summer of 2013 with a Bachelors of Science in Clinical Laboratory Science. Therefore, my degree has taught me to be conscientious, accurate and detail orientated.

I look forward to meeting with you to discuss the possibility of my employment at the Darke County Health Department. If you have any questions, please contact me at the number or e-mail listed on top of my cover letter as well as on my resume which you will find attached.

Sincerely,

Brittany D. Weitzel
