- _____ Submit House plans so Health Department can determine number of bedrooms (*see page 9*).
- _____ Submit page 3 to the best of your knowledge on locations of structures. Sewage designer can submit for septic design.
- _____ A copy of the drainage easement.

Owner/ applicant acknowledgement:

To the best of my knowledge, the information included in this application is complete and accurate. I understand and agree that approval for development will be subject to all applicable laws, regulations, and policies. I also understand that if changes occur which would make this application inaccurate, approvals will be void/ revoked until the new changes have been reviewed and new approvals granted. I also certify that the siting of a sewage system on this lot does not violate paragraph (B) of Section 3701-29-8.1 of the Darke County Home Sewage Treatment Rules. I certify that I understand the Darke County Health Department’s Bedroom Policy and have an accurate number of bedrooms listed on page 2.

Once the septic system is approved, an operational permit will be issued. The permit will be valid for the time frame issued on the permit. **An inspection will be conducted between 12 to 18 months after the system has been approved. When the inspection is complete, you will be sent a bill for the next operational permit period.** At that time, you may be required to submit supporting documentation that you have operated your system in accordance with the maintenance requirements listed in the system’s design.

Please note the health department may, at any reasonable time, inspect any household sewage treatment system or part thereof, sample the effluent, or take any other steps which may be necessary to ensure proper compliance with Ohio Administrative Code Chapter 3701-29-01 through 3701-29-18. This will be done at the discretion of the department and may involve additional work to be done, paperwork to be filed, and may incur additional fees and/ or costs to be paid.

All permits may be revoked if the submitted plans are altered without prior approval from the health department.

SECTION #2

The following must be done prior to scheduling the site visit:

_____ Location of home must be staked (corners)

_____ Property lines must be clearly marked

_____ Lot must be cleared of crops or high weeds. The vegetative cover on the lot (high weeds, crops, etc. must not exceed 12-inches in height or the property cannot be reviewed. If the lot(s) are heavily wooded, you may be asked to cut trails on the lot(s) to allow us to review the topography of the lot(s).

SECTION #3

The following must be submitted to obtain health department permits:

_____ Name of septic installer: _____

_____ Estimated cost of septic system installation: _____

_____ Name of the well driller: _____

_____ Name of the well pump/pitless adapter installer: _____

_____ Name of builder & foundation contractor: _____

_____ Name of plumbing contractor: _____

_____ The zoning permit or un-zoned township approval letter (*Obtain from zoning inspector or township trustee if in an un-zoned township, see attached information*)

_____ The address (*Obtain from the county engineer's office*)

_____ Recorded easements (if applicable) (*Obtain from recorder's office located in the courthouse. Many times it is located on the deed for the property*) Easements are required for drainage on new properties

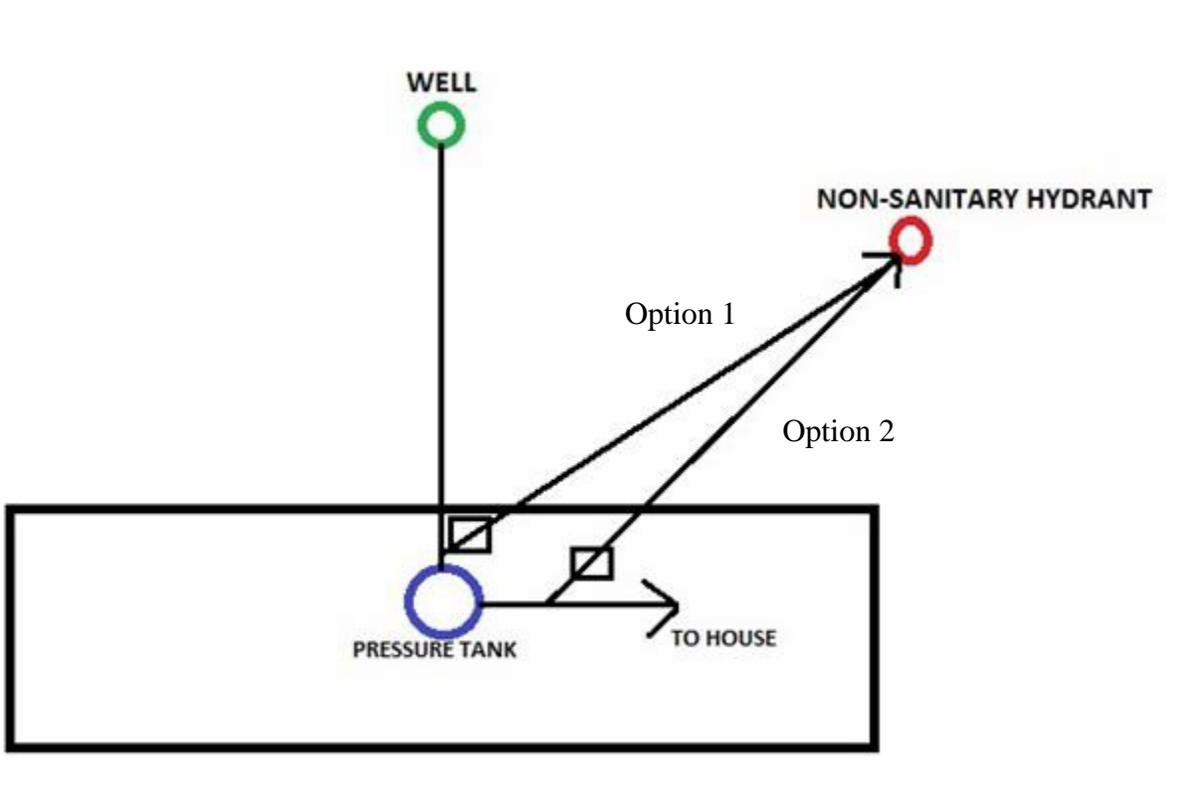

_____ Name of Service Provider: _____

All septic systems are required to have routine maintenance. Lists of service providers and septic haulers are available at the Health Department. The design plan and operational permit should specify the type of maintenance involved with your system.

Schedule an appointment with the inspector that completed your site evaluation to obtain your septic and well permit and authorization to obtain a building permit. Your plumber will obtain your plumbing permit. Permits are valid for one year from the date they are issued.

Because it is important to the health and safety of the occupants that the water, septic and plumbing systems are approved prior to occupancy, occupancy will not be granted by Building Regulations until all health department inspections are complete.

Option #1 – Non-sanitary hydrants that are plumbed in water line before the pressure tank need a backflow device that meets ASSE 1024, 1015, or 1013 standards. A well alteration permit is needed for this connection if the well is existing and there is no permit already.

Option #2 – Non-sanitary hydrants that are plumbed in the water line going to the rest of the house after the pressure tank needs a backflow device that meet ASSE 1013 standards which requires yearly testing with records kept by the homeowner. This connection requires a plumbing permit.

Option #3 – Install sanitary yard hydrants with built-in backflow devices. A well alteration permit is needed for this type of hydrant if the well is existing and there is no permit already.
